

## **All You need to know about integral Venetian Window Blinds**

### **C System – Cord operated Magnetic Control (most popular and easy to use option)**

The durable and easy to use cord is always set at 1.0 meter and controls the raising and tilting function.

No Cost Option (pictured in brochure) :

Rotational Knob – This option is not designed for lifting and the blinds are pinned for tilt only

Wand – This option is tilt only.

C System - Head rail will match the colour of the blind

### **S V System (Sliding Venetian)**

**Cleverly designed magnetic slider to control the whole operation**

Slide Guide & Head-rail only available in 4 colours

- White
- Beige
- Grey
- Anthracite

You must specify which vertical side you require the track.

Same price as the 'C' System

The side track reduces the glass by approximately 60mm

\*Important - Please make sure that the customer will be able to reach the magnetic slide guide on tall windows.

**Please note SWC do not supply the optional Motorised 'M' System or the Solar Powered 'F' System**

### **Unit specification**

- Internal Pane – Softcoat
- External Pane – clear float (low iron glass must be specified)
- Warm Edge (Black or Grey)
- Toughened both sides is standard
- Argon Gas
